

What's Happening with the Code of Ethics?

EPS has brought in a consultant to look at all of our policies and procedure. EPS is doing great and we are working on doing even better!

By the end of this year there will be an online Ethics & Anti-Harassment Training for teachers and trainers available in English, with other languages coming early in 2021.

We are also about to start an overhaul on the Code of Ethics & Professional Standard of a Kundalini Yoga Teacher.

We have quite a few trainers who will be working with us on this project.

EPS did a few, small, immediate changes to the Code based on feedback from our consultant and to make sure the Code matched the Ethics & Anti-Harassment Training for teachers and trainers that will be completed before the end of this year.
